## **About New Creation Teaching Ministry**

The work of New Creation Teaching Ministry (NCTM) began in 1973. The purpose was to bring to interested persons Christian teaching which would be supplementary to that already given in churches, or to be an introduction to those interested in the Christian faith, though perhaps not yet Christians.

The belief was that some might be glad to hear in order to come to know the faith. Others would be young in the faith and could be helped, whilst yet others might like to add to what they knew. For some it could be a training which would be helpful were they to go on into Bible Colleges, Seminaries, and the like.

NCTM Teaching Missions have been held in all Australian states. At present, a monthly Pastors' Study Group is held in Adelaide and yearly Pastors' Schools are run in South Australia and Western Australia. There is an annual NCTM Summer School at Victor Harbor, S.A., a Winter Schools in Adelaide, and a Spring School and monthly studies in New South Wales.

A Christian Workers' School and a Christian Workers' Correspondence School is conducted by NCTM. Churches, Bible Colleges and Seminaries invite NCTM teachers for preaching and various teaching series, and studies have also been led in Secondary and Tertiary Schools, Colleges and Universities.

Hundreds of books have been published which have made a wide and deep impact over the years, and these cover so many subjects, so much doctrine, so much that is for practical and devotional living. A large number of support materials such as study series and group studies have been produced.

At the NCTM campus in Coromandel East, South Australia a lending and study Library has been built which contains over 8 000 books. The library may be used on weekdays without charge.

### **The Kingdom of God**

These eight lectures were drawn from LFS. 14, *The King: The Kingdom of God: The Kingship*. Closely related to the theme of *The People of God*, the reign and rule of God from Creation to the final establishment of the Kingdom of Heaven is a fascinating study. What is more, these studies are related to current Christian and human living. (Notes \$1.00).

<sup>1</sup> In days when certain emphases are given concerning the Holy Spirit, this sane and biblical treatment bypasses emphases, as such. (Notes by G.Bingham, \$2.50: Clear, historical, applicative and practical, these are good notes to accompany the tapes, or as a resource on their own.)

<sup>2</sup> *Salvation History* is a 'must' for all Bible students. We need a panoramic view of God's action and purpose in history. In this way we can obtain a biblical perspective on the whole matter of salvation. (Study book by G.Bingham, \$2.50.)

<sup>1</sup> One thing coveted by eager students of Scripture is exegesis (explanation of the text), and exposition (enlarging and applying of the books of the Bible). Whilst ETS tapes are not available for all books of the Bible, there is a significant number of them, and this is increasing. Commentaries are available for several of the books.

## Inspirational Teaching Series

This, also, is a series which is much in demand. The studies have, in the main, been recorded at Teaching Missions and carry a strong sense of reality with them. Because they are strong and vibrant they confront the listener personally as well as teaching.

## Tapes For Life Series

These tapes are recorded in live audience situations, and are simple enough to be understood by people of all ages. They are practical, dealing with life as it confronts us—with its problems and its joys. We would say all tapes in this popular series are of equal value, although some will more appropriately meet certain situations as they apply.
