

New to mp3? Want to know where to buy mp3 players?

mp3 is a technology that compresses audio files onto a CD—enabling many more audio tracks to be stored than previously (without noticeable loss of quality). At New Creation we have been able to store up to 60 talks—each over 40 minutes long—on each mp3 CD!

21 New Creation mp3 CD titles are now available, and can be ordered via post by filling in and returning the form overleaf. Below is a list of different kinds of mp3 players and where to buy them. These details were correct as of December 2001, however like all products the prices and availability are subject to change. New Creation has compiled this list as a service to our supporters, and does not represent nor receive incentives from any of these suppliers.

All prices quoted in Australian dollars

	Price Range	Suppliers	Phone
<p>portable mp3 player</p> 	\$200 - \$300	Dick Smith Strathfield	1300 366 644 1800 22 10 10
